# Property Tax Appraisal Districts

### Valuing Property

Each county's appraisal district determines the value of all taxable property within the county. Before the appraisals begin, the district compiles a list of taxable property. The listing for each property contains a description and the name and address of the owner.

The appraised home value for a homeowner who qualifies his or her homestead for exemptions in the preceding and current year may not increase more than 10 percent per year.

Property Tax Code Section 23.23(a) sets a limit on the appraised value of a residence homestead, stating that its appraised value for a tax year may not exceed the lesser of: (1) the market value of the property; or (2) the sum of: (A) 10 percent of the appraised value of the property for last year; (B) the appraised value of the property for last year; and (C) the market value of all new improvements to the property, excluding a replacement structure for one that was rendered uninhabitable or unusable by a casualty or by mold or water damage. The appraisal limitation first applies in the year after the homeowner qualifies for the homestead exemption.

### How is your property valued?

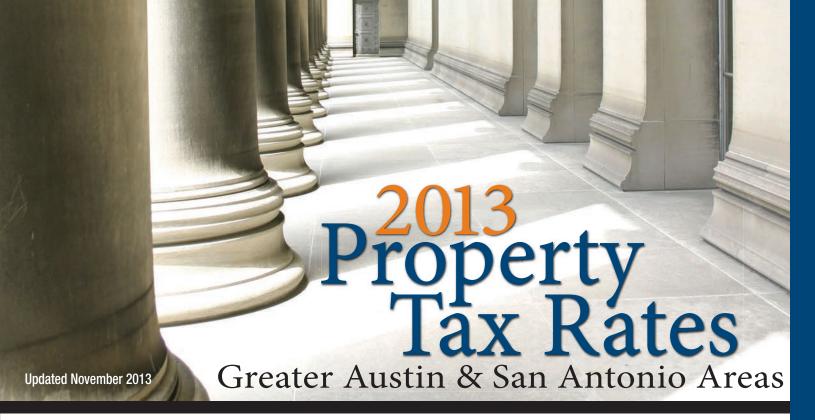

The appraisal district must repeat its appraisal process for property at least once every three years.

To save time and money, the appraisal district uses mass appraisal to appraise large numbers of properties. In a mass appraisal, the district first collects detailed descriptions of each taxable property in the district. It then classifies properties according to a variety of factors, such as size, use and construction type. Using data from recent property sales, the district appraises the value of typical properties in each class. Taking into account differences such as age or location, the district uses "typical" property values to appraise all the properties in each class.

The appraisal district may use three common methods to value property: the market, income and cost approaches.

The market approach is most often used and simply asks, "What are properties similar to this property selling for?" The value of your home is an estimate of the price your home would sell for on Jan. 1. The appraisal district compares your home to similar homes that have sold recently and determines your home's value.

Other methods are used to appraise types of properties that don't often sell, such as utility companies and oil leases. The income approach asks, "What would an investor pay in anticipation of future income from the property?" The cost approach asks, "How much would it cost to replace the property with one of equal utility?"

# Homestead Exemptions

A state law that took effect on September 1, 2011 has changed proof of residency requirements for homeowners applying for the property tax homestead exemption.

It's vital that home buyers update their address on their driver's license, and with the tax assessor/collector in their area in order to be able to provide the required documentation for the homestead exemption.

- APPLICATION FOR RESIDENTIAL HOMESTEAD EXEMPTION (available on the websites of most county appraisal districts)
- Copy of DRIVER'S LICENSE or IDENTIFICATION CARD from the Texas Department of Public Safety at www.txdps.state.tx.us The address MUST MATCH the homestead address.
- If you do not own a vehicle, you must complete the Non-Ownership of Motor Vehicle Affidavit (found on the Application for Residential Homestead Exemption), sign it before a Notary Public, and attach a copy of a utility bill showing the homestead address.
- The Homestead Exemption will NOT be allowed unless all the required documents show the same homestead address. ALL THREE DOCUMENTS MUST HAVE THE SAME ADDRESS.

**As of Sept. 1, 2013,** homeowners are no longer required to provide a copy of their vehicle registration.

The new requirements also apply to applications for the over-65, disability, disabled veterans, homeowner's surviving spouse and manufactured (mobile) home exemptions. They do not apply to homeowners who already have homestead exemptions.

To qualify you must own the home on January 1 for the year you are applying for and you must file the form and additional information by April 30th of that year. For more information, contact your local county appraisal district.

Scan on your mobile for source website: www.window.state.tx.us/taxinfo/proptax/exmptns.html

#### Requirements

Homestead exemptions remove part of your home's value from taxation. If you want to receive a homestead exemption for the taxes on your home, the home must first qualify as a residence homestead on January 1 of the year in which you are applying. There are two requirements:

- 1. You must own your home on January 1. (If you are over 65, and/or disabled the January 1 ownership and residency are not required.)
- 2. You must use the home as your principal residence on January 1.

## Do I, as a homeowner, get a tax break from property taxes?

You may apply for homestead exemptions on your principal residence. Homestead exemptions remove part of your home's value from taxation, so they lower your taxes.

For example, your home is appraised at \$100,000, and you qualify for a \$15,000 exemption (this is the amount mandated for school districts), you will pay school taxes on the home as if it was worth only \$85,000. Taxing units have the option to offer a separate exemption of up to 20 percent of the total value.

#### Do all homes qualify for homestead exemptions?

No, only a homeowner's principal residence qualifies. To qualify, a home must meet the definition of a residence homestead: The home's owner must be an individual (for example: not a corporation or other business entity) and use the home as his or her principal residence on January 1 of the tax year. If you are age 65 or older, the January 1 ownership and residency are not required for the age 65 homestead exemption.

#### What is a homestead?

A homestead can be a separate structure, condominium or a manufactured home located on owned or leased land, as long as the individual living in the home owns it. A homestead can include up to 20 acres, if the land is owned by the homeowner and used as a yard or for another purpose related to the residential use of the homestead.

#### What homestead exemptions are available?

There are several types of exemptions you may receive.

#### School taxes:

All residence homestead owners may receive a \$15,000 homestead exemption from their home's value for school taxes.

#### **County taxes:**

If a county collects a special tax for farm-to-market roads or flood control, a residence homestead owner may receive a \$3,000 exemption for this tax. If the county grants an optional exemption for homeowners age 65 or older or disabled, the owners will receive only the local-option exemption.

#### Age 65 or older and disabled exemptions:

Individuals 65 and older and/or disabled residence homestead owners may qualify for a \$10,000 homestead exemption for school taxes, in addition to the \$15,000 exemption for all homeowners. If the owner qualifies for both the \$10,000 exemption for 65 and older homeowners and the \$10,000 exemption for disabled homeowners, the owner must choose one or the other for school taxes. The owner cannot receive both exemptions.

#### Optional percentage exemptions:

Any taxing unit-including a city, county, school, or special district-may offer an exemption of up to 20 percent of a home's value. But, no matter what the percentage is, the amount of an optional exemption cannot be less than \$5,000. Each taxing unit decides if it will offer the exemption and at what percentage. This percentage exemption is added to any other home exemption for which an owner qualifies. The taxing unit must decide before July 1 of the tax year to offer this exemption.

#### Optional 65 or older or disabled exemptions:

Any taxing unit may offer an additional exemption amount of at least \$3,000 for taxpayers age 65 or older and/or disabled.
