COPPELLTX.GOV

In 1955, the Coppell was incorporated through a ballot measure that passed by a vote of 41 to 1. Spurred by the opening of Dallas/Fort Worth International Airport in 1974, the city was radically transformed from a tiny farming village to a large, upper-middle class suburban community in the 1980s and 1990s. By 2000, almost all of the residentially zoned land in the city was developed, and the population grew to over 35,000. In addition to suburban homes, the city has a growing commercial base of warehouses and transportation centers on the south and west sides of the city, closest in proximity to the DFW airport.
