DALLAS LOVE

# REGIONAL AIRPORTS

## Dallas Executive Airport

[dallasexecairport.com](http://dallasexecairport.com)

Located less than 10 miles from downtown Dallas, Dallas Executive Airport occupies less than 1000 acres of land and is within minutes of the best Dallas has to offer: Fortune 500 business district, four and five-diamond hotels and restaurants, year-round sports, museums, world-class shopping and the largest urban arts district in the nation. The airport also features 480 acres of developable land, more than any other regional general aviation airport.

## Fort Worth Alliance Airport

[allianceairport.com](http://allianceairport.com)

Fort Worth Alliance Airport (AFW) is the world's first 100% industrial airport designed for cargo and corporate aviation. AFW features a vast array of flight services, including air cargo, corporate and military aviation, and is the cornerstone for the nation's fastest-growing industrial complex, the Alliance Global Logistics Hub. There is no finer facility for corporate, industrial/air cargo or military aviation than Fort Worth Alliance Airport.

Owned by the City of Fort Worth and managed by privately-held Alliance Air Services, Fort Worth Alliance Airport provides state-of-the-art infrastructure and an award-winning FAA Air Traffic Control Tower. Whether the needs are for air cargo/freight, corporate aviation or military, Fort Worth Alliance Airport can accommodate.

## Meacham International Airport

[fortworthtexas.gov/aviation/meacham](http://fortworthtexas.gov/aviation/meacham)

Meacham International Airport places corporate business and general aviation travelers right in the heart of North Texas -- the City of Fort Worth. Meacham International Airport is North Texas's premier general aviation facility just five miles from historic downtown Fort Worth.

## Spinks Airport

[fortworthtexas.gov/aviation/spinks](http://fortworthtexas.gov/aviation/spinks)

Spinks Airport, opened in 1988, is a general aviation reliever airport for the Dallas/Fort Worth Metroplex. It is located 13 miles south of downtown Fort Worth, offers easy access to Interstate 35W, and bypasses DFW Class B airspace.

With a blend of corporate business and general aviation activity, Spinks offers amenities that cater to your needs. A paved 6,000-foot runway coupled with a 4,000-foot turf runway provides flexible options. Due to high demand and \$17 million in private hangar investments, Spinks was recently named Most Improved Airport by TxDOT Aviation.

## McKinney National Airport

[flytki.com](http://flytki.com)

McKinney National Airport (TKI) is your full-service North Texas general aviation resource located in McKinney, Texas. Enjoy convenient access to the entire North Texas area. We offer full service for corporate fleets, hangar space and incentives with fewer delays and superior infrastructure and services. We are the North Texas airport of choice for business and personal aviation transportation.
