

# TOP Social Video Chat Apps

## Facebook Messenger

Keep your friends and family close with unlimited 1:1 and group video calls. Host group video calls with up to 8 people, with high-quality audio, high definition video, and interactive video features like face filters. Works across devices (smartphones and desktop).

## Glide

Glide combines the convenience of texting with the expressiveness of video chat. Now you and your friends and family can share real moments as they happen and enjoy quality facetime. Share videos with friends and family from everywhere to anywhere with a tap!

## Google Hangouts

Use Hangouts to keep in touch. Message friends, start free video or voice calls, and hop on a conversation with one person or a group.

## Houseparty

Houseparty makes connecting face-to-face effortless, alerting you when your friends are “in the house” and ready to chat so you can jump right into the conversation. Likewise, your friends will know you’re in the app and ready to chat, so they can join you.

## JusTalk

JusTalk is a high-quality video, voice, and group calling app for everyone—simple, reliable, secure and fun, so you can enjoy life’s moments together. Doodle, record your call, play games, and share photos with your friends and family to liven up your conversation during calls.

## Marco Polo

The makers of Marco Polo call the app a “video walkie-talkie.” Messages are sent immediately and are available for the recipient to view and respond to almost instantly—if that’s what you want. Instead of talking in real time, you take turns leaving videos for each other. The app has many fun features, including filters that can change the sound of your voice. You can also draw and write on videos to personalize them.

## Skype

Skype is built for both 1:1 and group conversations, and works wherever you are—via mobile, PC, Xbox and Alexa. Skype messaging and HD voice and video calling will help you share experiences and get things done with others.

## Squad

Squad lets you hang out with friends in all of your favorite apps. Start a group video chat, then broadcast your screen so everyone can see what you see. Show friends anything on your phone from text messages to TikTok videos.

## Viber

Viber allows users to make free calls, send texts, pictures, and video messages to other Viber users. It works on both mobile and computer and can be used to connect with people around the world.

## WhatsApp

Specializing in cross-platform messaging, WhatsApp is a free service that lets users message one another seamlessly between mobile and desktop devices. Users can make voice and video calls, and share images, documents, user locations, and other media.
