Built-in bars For homeowners who love to entertain, a built-in bar offers the perfect setting for cocktail fixings, drinks, and hors d'oeuvres.

Contrasting Islands Contrast warm with cool, or vice versa.

Colorful Island/Fridge Perfect for brightening up your kitchen.

Hexagonal Tile Backsplash Both monochromatic and complementary colors work well here.

White & Wood Kitchens Alternatively, contrasting white with the earthy colors of wood is a simple yet effective touch.

Wall of Tile Sometimes you just have to go all-out. Floor-to-ceiling tiles work when a backsplash just isn't enough.

Marble Class it up with marble countertops or flooring.

Greenery Pantone's 2017 color of the year, "Greenery" brings the vibrant colors of nature to your home's interior.

Neutral Tones Often a subdued, neutral tone such as beige or gray works just as well as a more vibrant color. But remember, a splash of color is often needed to keep the neutral tones in check.

Velvet The color and texture of velvet adds a nice counterbalance to the neutral tones as well.

Vanities You don't have to settle for the manufactured look. Give an old chest-of-drawers or a file cabinet new life as a vanity.

Black Steel & Glass Used in a shower, this modern combo allows natural light to enter.

Hanging Lights If space is at a premium, hanging lights can be a good alternative to desk-lamps.

Romantic Tones Warm tones can add a romantic touch to the bedroom.

Docking Stations With our increasingly connected lifestyle, having a place to charge all your devices is a must! Plus, docking stations made of small cabinets or desks can serve as a place to complete quick tasks.

Garage Remodels Is your garage just a place to store your knick-knacks? Put that stuff into proper storage and convert it into a guest room.

Shedquarters A shed can be repurposed into a workspace for many different tasks!
